I can build your houses cheaper than anyone else in town. I have the lumber; I have the machinery, and 30 years' experience. I have a portable house set up here, consisting of four rooms.

They can be finished up on the inside to suit you for \$500 to \$750. I can build you a small house for about \$200. If you haven't got the \$200, make an effort to get it.

I am running this business on a large scale and do building cheap. I didn't have \$200 six years ago myself; say not. But I took a tumble. I came to the conclusion something was wrong with me, and one day dropped into a place down town to get supper, and what do you suppose I saw on the bill of fare? Brains, 45 cents. It flashed through my mind that I needed something like that. So I ordered a dose, and, believe me, things went different from that day on, and it was that dose of 45-cent brains got me going, and I am buying brains right now, and have made thousands of dollars by keeping supplied with brains. You can benefit by my experience. Get brains, and you soon will be on your way rejoicing, and buy your lumber from the Ohlrau Lumber & Mill Co.
